EXPERIENCE & TRAININGS :

Backend Developer Internship at Rablo : HomeTuitionEdu Pvt. Ltd.

Worked as MERN Stack Developer

Aug,2022 – Oct,2022

- There I design the tutor database and build backend for tutor registration
- I build the test portal.
- Also fixed some previous bugs.

Web Development Training By INTERNSHALA

July 2020 - August 2020

Certificate no. : F88E93EC-CBE2-2C8D-ED98-2A7AEC906924

PROJECTS :

Saviours — <https://github.com/iamankanghosh/Saviour-projectCrowdFunding>

I developed a crowdfunding platform on blockchain using Solidity, HardHat, Ether.js, Next.js, Node.js, IPFS. Also deploy the project on Goerli test net. It is fully decentralized application , there is no central database. Images are stored in IPFS.

Trade Report : github.com/iamankanghosh/TradeReport_college_mini_project

This website helps traders to know every aspect of stock market Indian and also Global Stock market and Commodity market . Users can find relevant data about the market and market emotion.

Typing Test — <https://iamankanghosh.github.io/TypingTest/>

I have developed this typing speed tester using HTML5, CSS and Javascript. The tester displays 50 words at a time according to the difficulty chosen by the user and also it calculates accuracy and speed.

Portfolio Website — [ankan.in](https://www.ankan.in)

I have developed my Portfolio Website using react.js and host it using Github .

SKILLS :

- Node.js
- MongoDB
- MySQL
- React.js
- Next.js
- JavaScript
- Solidity
- hardHat
- Ether.js

COURSEWORK :

- Java
- Object Oriented programming
- DBMS
- Data Structures & Algorithms
- Cryptography

STRENGTHS :

- Smart working
- Good in time management

LANGUAGES :

- English
- Hindi
- Bengali
